Cambodia Construction Industry EXPO

29th Nov - 1st Dec 2018 at Koh Pich

Cambodia Constructors Association

Welcome Message

As the chairman of Cambodia Constructors Association, I would like to express my great excitement to participate and strongly support the organization of the Cambodia Construction Industry Expo 2018 hosted by Cambodia Constructors Association on 29th November to 1st December 2018 at Diamond Island Exhibition and Convention Center, Phnom Penh, Kingdom of Cambodia.

This expo is organized to showcase latest building-related technologies including various construction tools, equipment, products, machineries imported from countries around the globe, and also showcase many attractive modern and standard property development projects.

The event aims to target the visitors who are the local and international constructors, designers, architects, engineers, investors and property developers. All of these exhibits are to reveal the Cambodia's rapid developments and prosperities in this contemporary time.

As the chairman of Cambodia Constructors Association, I encourage and appeal to all exhibitors to continue participating in this annual expo every year.

Finally, on behalf of members of Cambodia Constructors Association as well as my own behalf, I would like to wish all participating companies in the Cambodia Construction Industry Expo 2018, organized by Cambodia Constructors Association to achieve great successes in your businesses. Thanks you!

Chairman,

As the Chairman of Cambodia Constructors Association (CCA), I would like to inform all readers, exhibitors and visitors that the construction industry in Cambodia has rapidly developed because both local and foreign investors have full confidence in the nation's political stability and strong economic growth. These factors have inspired them to invest significant capital in satellite city developments, residential developments, commercial centers, condominiums, factory plants, and large-scale shopping centers, etc in Cambodia. To develop these projects, it is necessary to utilize quality, safe construction materials, tools, equipment, services and technical standards. Providing modern facilities is especially important to allow peoples' changing lifestyles to conform to the contemporary living standards, of other developed countries. These developments have inspired CCA to explore qualified hi-technology providers to showcase standardized construction materials, tools, and machinery at the Annual Cambodian Construction Industry Exhibition. The exhibition aims to inform all end users and owners of construction projects about the standardized construction materials, technologies, and services that are currently available on the Cambodian market, and provide a platform for business networking and partnership within the industry.

On this special occasion, I would also like to inform all companies that the Cambodia Constructors Association Annual Cambodian Construction Industry Exhibition will reveal an abundance of modern construction materials and technologies from around the world that can be found in Cambodia, and therefore appeal to interested companies to register to participate as soon as possible.

Finally, as Chairman of Cambodia Constructors Association, I would like to pay my gratitude to all the exhibitors that have given their utmost effort in preparing for the event, and the visitors who will spend their valuable time touring the event. Together, I believe both firms and visitors will gain many benefits from this successful Cambodian Annual Construction Industry Exhibition. **Thank you!**

Best wishes,

Neak Oknha Pung Kheav Se

Cambodia Construction Industry Expo

The Annual Cambodia Construction Industry Exhibition is hosted and organized by the Cambodia Constructors Association (CCA) as part of the association's annual general assembly. The exhibition intends to showcase and promote the construction materials, services, and technologies available in Cambodian market. Most of the CCA members will participate in this exhibition to showcase materials, equipment, machinery, services, properties, and so on. The show receives support from many public institutions including the Ministry of Land Management Urban Planning and Construction, the Ministry of Commerce, the Ministry of Labour and Vocational Training, the Board of Architects Cambodia, the Board of Engineers Cambodia, and especially the ASEAN Constructors Federation-ACF and International Federation of Asian and Western Pacific Contractors' Association- IFAWPCA.

As part of this mega event, CCA will invite local and international executives/managers of construction firms, architecture & design consultancies, construction material, equipment and machinery suppliers/distributers, and real estate agencies including owners of property development projects like residential bloc (Borei), condominiums, apartments and other relevant property projects. Moreover, CCA will also invite Oknha, and Excellencies who are well-known investors in the construction and property industries. Many architects, engineers, construction project managers and professionals immersed in the construction and property markets will also participate in this first-ever flagship building expo.

CCA will be honored to invite the Minister of the Ministry of Land Management, Urban Planning and Construction to preside over the event, and also invite other officials representing public institutions such as the Board of Engineers Cambodia, the Board of Architects of Cambodia and the ASEAN Constructors Federation will be present too. CCA will invite national and foreign visitors who are in needs to buy, sell or distribute products, seek business partners or skilled persons within the industries, especially those who are potential buyer, investor or partner in the projects.

The show will play a very prominent role for the nation's development, because via this event, a wide range of construction materials, equipment, tools, machinery and hi-technologies will be showcased to serve the kingdom's construction industry that will beautify the sector into the modern, standardized and safe developments. This will reflect the country's economic prosperity. **Thank you.**

CRÉATIVE FRANCE

Feel welcome to join us on the French pavilion (stand 205 to 212) and discover the French savoir-faire!

For the first time in Cambodia, the French-Cambodian Chamber of Commerce and Industry organizes, with the Embassy of France's support, a national pavilion on the Cambodia Construction Exhibition CCA. The Construction sector is a pillar of the Cambodian economy as well as a flagship for a the French savoir-faire. Hence, 20 companies joined us on the pavilion including :

- **AFG** with **DIRICKX** (fences and gates), **SOVAL** (water distribution), **TECHNEAU** (separators, water treatment unit), **SUNWATERLIFE** (potable water supply station) and **BEAUDREY** (penstocks, screening water equipment) ;
- **APAVE** : consulting, training, test and measurement for risk control ;
- **CONFLUENCES** with **DESAUTEL** (fire protection equipment), **LABARONNE CITAF** (flexible tanks), **GERFLOR** (flooring), **SODEX** (sport equipment) and **NICOLL** (sanitary, building, environment) ;
- **GREEN YELLOW** : turnkey and financed energy efficiency and solar projects ;
- **LBL** : High end construction, architecture and development in Cambodia.
- **MARTIN DUPLANTIER** : architects ;
- **VINCI CONSTRUCTION GRANDS PROJETS** : design and construction of civil engineering structures and buildings ;
- **2 L'EAU PROTECTION** : flood protection and chemical spill containment

Other French companies, **SOCOMEK** (energy critical power and power-control and safety) and **LEGRAND** (electric equipment) will be represented with a booth
